A.4.4 Host Great Lakes SHSM Student Conference

Following through on the foundational Teachers’ Symposium project held in 2013-14, as described in Section A.2 Background, the Recipient will host a Specialist High Skills Major (SHSM) Student Conference on Lake Ontario in May 2015, involving approximately 80 students and 20 teachers and Great Lakes professionals.

The purpose of the SHSM Student Conference is to build on the success of the Teachers Symposium event, and to create opportunities for Grades 11-12 SHSM students to explore their region’s connections to their Great Lake. The conference will require students to work on a Great Lakes-focussed project during the school year, so the results of their work can be showcased during the event.

To prepare students for their participation in the conference, the Recipient will work with teachers to identify guest speakers for the classroom to help students deepen their awareness of their Great Lake’s unique attributes (e.g., geography, history, culture, etc.) and to broaden their understanding of the issues currently facing the lake (e.g., invite a scientist to explain how excessive algae is formed and how it impacts ecosystem health).

The Recipient will write a report that will be posted on the Conservation Ontario website to document how the event was planned, what transpired and what was accomplished (i.e., the outcomes) as a way to encourage other conservation authorities to work with their local school boards to host similar Great Lakes educational events in the future. The report should also include advice from the participating school board partners and teachers to encourage other school boards to work with their local conservation authority, and host a similar Great Lakes-focussed event.

The conference will be documented by a videographer for future promotional and educational purposes. For example, it will be shared with school boards in the GTA, in particular, to document how the Project unfolded, and garner their interest in replicating the model in their own district. The completed video will be available online for students and teachers.

MY GREAT LAKE, MY FUTURE
Students Taking Action for Lake Ontario

When?
Thursday, May 7, 2015

Where?
Harbourfront Centre & Tommy Thompson Park

A Reach Ahead opportunity for SHSM students who are passionate about the environment:
• Free registration and lunch
• Career paths panel discussion with sector experts
• Hands-on, field work at Tommy Thompson Park
• Meet other Toronto students Taking Action
• Transportation provided

Speak to your SHSM teacher to confirm your participation.

EVENT MENU / ESTIMATE

EVENT: Toronto & Region Conservation Authority
Great Lakes Student Conference
LAKESIDE TERRACE

DATE: MAY 7th, 2015      8 AM START

NUMBER OF GUESTS: 100

MENU:

CONTINENTAL BREAKFAST
ASSORTED BAGELS / CROISSANTS / MINI DANISHES / MUFFINS
YOGHURT
ASSORTED FRUIT PLATTERS
ASSORTED JAMS/CREAM CHEESE/PEANUT BETTER ETC

BEVERAGES
COFFEE/ TEA/ FRUIT JUICE PITCHERS / WATER

LUNCH (ONLY ONE OPTION MUST BE CHOSEN):

OPTION 1:
GRILLED CHICKEN OR GRILLED VEGETABLE & CHEESE SANDWICHES
SERVED WITH POTATO SALAD

OPTION 2:
BEEF BURGER OR VEGGIE BURGER SERVED WITH FRIES AND CAESAR SALAD

OPTION 3:
ASSORTED PASTA SALADS (PESTO / GREEK / RANCH / SOUTH WESTERN)
VEGGIES & DIPS
HUMMUS & PITA PLATTERS

ALL LUNCH OPTIONS COME WITH:
ASSORTED COFFEE CAKES FOR DESSERT

COFFEE / TEA / JUICE PITCHERS / WATER
Panelist: NICOLA CRAWHALL  
Deputy Director, Great Lakes and St. Lawrence Cities Initiative

Nicola is the Deputy Director of the Great Lakes and St. Lawrence Cities Initiative, a coalition of over 110 Canadian and U.S. mayors representing over 17 million citizens, who work together to advance the protection, restoration and promotion of the Great Lakes and St. Lawrence Basin. Nicola has served as senior policy advisor to two Ontario Ministers of the Environment, and has also served as senior environmental policy advisor for the Association of Municipalities of Ontario.

As Deputy Director, Nicola is part of the senior management team that sets the strategic direction of the organization, liaises with the Board of Directors, does membership outreach and manages program delivery. She is responsible for the Green Cities program, which focuses on issues like stormwater, sustainable water management and climate change.

Panelist: GORD MACPHERSON  
Associate Director of Restoration Projects, TRCA

The tireless Gord MacPherson is a TRCA veteran who has been with the organization for over 30 years. He’s had his hand in the creation of some of the most spectacular green spaces in the GTA. Two of his favourites are cell one at Tommy Thompson Park and corner marsh, part of Duffins Marsh. When he’s not building wildlife habitat for our wild critters, you can find Gord quietly fishing; some of his favourite places are right here in the big city.
May 7th
1:00pm-2:45pm @ Tommy Thompson Park

Two flip/flop activity Stations delivered by TRCA staff + others (2 groups of 40 students at each station). Each activity will be 20 minutes with all students completing all activities.

Each Station will have two activities:

1) Bird and Water (Embayment D)
   - Tern Shelter Building Activity and discussion on water fowl (20) – Environmental Technologist, Restoration Projects
   - West Nile Virus and Public Health (20) – Technician – Environmental Monitoring and Data Management

2) Fish and Shoreline (Embayment C)
   - (Dock) Fish Monitoring and viewing - discussion on fish and lake health (20) Senior Manager, Environmental Monitoring and Data Management
   - Restoration site tour – discussion on TTP formation and restoration activities (20): Environmental Educator, Tommy Thompson Park
Pre-visit Agenda

For schools attending the Great Lakes Conference, May 7th 2015. Pre-visits to take place in February 2015.

Introduction
An overview of the project and the partners involved, and an outline of the May 7th conference

Great Lakes and Lake Ontario Presentation
Brief presentation and introduction to Conservation Ontario interactive website

Water testing
Students will use testing kits to test two samples of water, one from Lake Ontario and one from headwaters.

Action Project: video and discussion
Show example of a student video presenting an eco project and discuss possibilities for their projects

Q & A

My Great Lakes Student Conference

Student Action Project: Guidelines for presentations

We are asking each group of students to make a short (5 minute) presentation describing an action project they have undertaken as a group, something that will have a positive impact on the Great Lakes in some way. Here are some guiding questions:

In what ways do I/we interact with the lakes? (Drinking water, waste water, recreation…..

How might my/our actions negatively impact the lakes? Is there anything I/we could change?

How do the actions of my school or local community impact the lakes? Is there anything I / we can do to change this?

Action projects might fall into one of the following categories:

DOING something- for example, planting aquatic plants to help restore a wetland, investigating water quality in your area……

EDUCATING somebody – for example, a poster campaign to make people aware of the damage caused by microbeads and how to avoid using them ……

Presentations should be:

- 5 minutes in length
- Presented by a group of 4-5 students
- Prepared in any form you like – PowerPoint, Prezi, video, dramatic presentation, song….­
- Submitted to me by April 30th so that we can check and upload in time for the conference. (If yours is a dramatic or musical presentation, you need only submit a brief outline of what you plan to present by this date)

There will be a short Q&A session after each presentation.

Questions? Please don’t hesitate to contact me.
MY GREAT LAKE, MY FUTURE

Dear Students,

We get our drinking water from the Great Lakes, we use them to power our manufacturing industry, to transport goods from other countries and around the region. We swim in their waters, we play on their beaches, we eat fish that the lakes have nurtured. Yet, how many of us ever give them a second thought?

It is with excitement that we welcome you to the first annual My Great Lake, My Future Student Conference for Lake Ontario! We invite you to get to know your Lake Ontario, find out how amazing it is, how threatened it is and think about what role you can play in keeping it GREAT.

Today is for you—the young, passionate, environmentalist who wants to make a difference, who knows they can, will and do make a difference. The one who feels an inexplicable connection with, and responsibility to, their natural surroundings and who wants to protect, nurture and grow these natural surroundings. Today is to remind you that the connection you feel, that spark, is real.

So real, in fact, that you can turn that spark into a career!

Let’s get started!

Sincerely,

The My Great Lakes, My Future Conference Planning Committee
Industry Professionals Panelists

**Moderator: CARMEN SCHLAMB**  
Professor of Environmental Studies, Seneca College

Carmen Schlamb is a professor of environmental studies with Seneca College’s Centre for the Built Environment. She teaches courses in field ecology, environmental science and sustainability. Carmen holds a Masters of Education in Environmental Education and is currently working on her PhD in Educational Sustainability.

**Panelist: THERESA MCCLENAGHAN**  
Counsel and Executive Director, Canadian Environmental Law Association

Theresa McClenaghan is Counsel and Executive Director at the Canadian Environmental Law Association. Theresa represents clients in environmental court cases and works on improvements to environmental laws in Canada.

**Panelist: SUDHA SABANADESAN**  
Health Policy Specialist, Toronto Public Health

Sudha is a Health Policy Specialist at Toronto Public Health. She has more than 15 years of experience in advancing public health in Ontario for the municipal and federal governments. In her current role, Sudha provides leadership on policy matters related to the natural and built environment, including pollution, healthy buildings and neighbourhoods, land use planning and transportation. Sudha has volunteered for several community organizations to improve the wellbeing of all Torontonians and she actively contributes to professional associations in public service. Sudha holds an MSc degree from the University of Guelph and BSc degrees from U of T and Ryerson University.

**Panelist: NICOLA CRAWHALL**  
Deputy Director, Great Lakes and St. Lawrence Cities Initiative

Nicola is the Deputy Director of the Great Lakes and St. Lawrence Cities Initiative, a coalition of over 110 Canadian and U.S. mayors representing over 17 million citizens, who work together to advance the protection, restoration and promotion of the Great Lakes and St. Lawrence Basin. Nicola has served as senior policy advisor to two Ontario Ministers of the Environment, and has also served as senior environmental policy advisor for the Association of Municipalities of Ontario.

As Deputy Director, Nicola is part of the senior management team that sets the strategic direction of the organization, liaises with the Board of Directors, does membership outreach and manages program delivery. This project has received funding support from the Government of Ontario. Such support does not indicate endorsement by the Government of Ontario of the contents of this material.
Dear Student,

We are thrilled that you will be joining us for the first annual *My Great Lakes, My Future: Student Conference for Lake Ontario* this Thursday May 7th at Harbourfront Centre and Tommy Thompson Park. This document is designed to share with you how to best prepare for the day.

**Notes for Before the Conference**

- Please determine where and when you should be meeting your teacher at school the morning of the conference. Transportation is provided in a luxurious coach bus – don’t miss your ride!

**Tech**

- Please remember that your presentation should have been sent to [insert email address] by April 30, 2015. If you have not yet, please send ASAP.
- If you have integrated or embedded content into your presentation that requires the internet, please note that there is absolutely **no access to internet** at Harbourfront Centre. We recommend downloading content in advance.

**Prep**

- The night before the conference (May 6th), check the weather and pack accordingly. Half of your day will be spent outside with no option to avoid the elements. Please remember that we will be down on the lake for the afternoon where it is often cooler than in the city, please be prepared. We recommend considering:
  - Due to the natural elements you may encounter at the Park, please ensure you have appropriate footwear: Waterproof, comfortable footwear WITH closed-toes (e.g. hikers/runners/boots – good! Sandals - bad!)
  - Rain coat
  - Sweater/ layers
  - Hat
  - Sunscreen (non-aerosol)
  - Sunglasses
  - A note on bug spray – at this time of year and day, bug spray will not be necessary. However, if you choose to use it, note that this choice will restrict your hands-on interaction with wildlife and session activities and should be applied prior to boarding the bus to Tommy Thompson Park, as it is considered a contaminate.

**Conference Day**

- Remember you can Tweet your questions to the panelists using #OurGreatLakes
- Ask questions, engage, talk to people you don’t know yet!
